ictus: repentina percussio, plerumque gravis.

fodians,
terebrans, et

diruens dolor fere non nisi gradu differunt; postremus gravissimus.

rheumaticus dolor: strictorio et laceranti affinis, si non idem.

arthriticus dolor: saepe pro synonymo rheumatici, vel majori ejus gradu habetur, quamquam arthriticus verus ex multis et diversissimis dolorum generibus sit compositus, ex tensivo, pressorio, vulsorio, terebrante, lacerante, ardente, lacinante.

crepitans sensus: fragor minutus, quasi a lamina stannea hinc illinc flexa, vel igne sarmenta comburente, vel ligni aridi frustum minutum frangendo.

formicatio: sensus minutim reptabundus.

tinniens: sensus minutim vibrans.

depressio: sensus quasi aliquid manu capessatur, comprimatur et iterum relaxetur.

blateratio: soliloquium incongruorum, clara voce.

massitatio: murmuratio surda, in semet versa, verborum non intelligibilium.

inappetentia, taedium, fastidium, fuga, intolerantia, abhorrescentia gradu tantum differunt.

trepidatio: angor cum tremore.

agitatio: motitatio corporis cum, vel sine angore.

inquietudo, dysphoria, jactatio, aestuatio: gradu differunt — afflicta angori, angustiae, anxietati.

titubatio: sensus quasi ab agitatione hinc illinc.

vacillatio: firmitatis et consistentiae defectus.

conquassatio: sensus quasi ab aqua in vase clauso ad utrumque latus appulsa.

glocitatio: sensus quasi a bullis aëreis per aquam adscendentibus, vel quasi ab aqua per siphonem cadente.

diapedesis: exsudatio lenta (sanguinis).

epistaxis: (sanguinis) stillicidium e naribus.

diaphoresis
mador } aequalis, sed lenissimus sudor.

coryza
destillatio } muci narium effluxus.

gravedo: obturatio narium interna, quasi ab instante graviore coryza.

nausea: lenior gradus vomituritionis.

vomituritio: nisus in vomitum.

horror
horripilatio } tremulus in cute et concussorius per superficiem corporis sensus, plerumque cum frigoris sensu.

horrescentia: propensio in horrorem et hyperaesthesia aëris vel minus frigidi, temperati.

frigus: sensus quasi ex frigiditate corporis, non raro horrori junctus.

frigiditas: caloris defectus verus, tactui externo patens.

frigidus, et

gelidus: gradu differunt tantum.

stupor: affinis insensilitati, et immobilitati.

dormituritio: nisus in verum somnum.

sopor
coma
coma vigil } facile, sed imperfecte excitabilis somni levissimi species; vel et agrypnia sub specie stuporis dormituriens.

coma somnolentum: stupor dormituriens, aegerrime excitabilis.

VI

micturitis: nisus in mictum creber.

enuresis: mictus auctus.

dysuria: inter lotii copiam mictus impeditus.

stranguria: mictus dolore vesicae colli impeditus.

erythema: rubor vel macula rubra.

stigmata: maculae minutae.

intertrigo: minor gradus

excoriationis.

hallucinationi res videntur aliae, quam quae re vera sunt.
